Brief Statement on Potential Contribution to the Executive

My first year on the USNZ executive has mostly been an opportunity to get to grips with the organisation and the challenges it faces as it develops its role in the tertiary and sporting sectors. A second term would give me the opportunity to properly make use of this experience and apply my skills and knowledge to continued dynamic and forward-thinking governance.

As Chair of the Finance Committee I have been responsible for monitoring a budget prepared for the Finance Commission without my involvement. I have enjoyed being part of the development of the proposed 2007 budget and look forward to the opportunity to see it implemented. There are financial challenges to be faced in 2007 and, having supported the proposals, want to be there to face them.

As USNZ looks to the future it will be important that constituent members are confident that consultation will be meaningful and genuine. I have many years of experience as a member, governor and employee of membership-driven organisations and fully recognise the importance to maintain open communication lines between members, governors and management.

Additional Information (use additional space as required)

Employed as a media and communications advisor, I have experience in public relations, media management and brand building that can be drawn upon as USNZ looks to attract income other than levies. I believe that despite considerable recent gains, there is much USNZ can do to raise the profile of its services, activities and events and to attract potential sponsors.

Running as a candidate for Vice President, I offer my experience in chairing meetings and as a spokesperson to support the President.
