Brief Statement on Potential Contribution to the Executive

I am closely involved in the student body and sporting events at both a University and Secondary School level. I take a particular interest in the transition phase from secondary school to University sport.

I have a passion for sports development at a university and national level, and USNZ is in prime position to be able to affect change in this sporting sector.

If re elected I will continue to ensure USNZ provides consistently quality events and opportunities for increased participation. I also wish to continue my work towards USNZ's research project, to provide a base on which improvements in the university sporting sector can be measured.

As a result of my presidency at the University of Auckland Tamaki campus I am well versed with the requirements of the student associations, and the challenges faced by them and their members. This has given me the added bonus of knowledge of small and large campus issues. This combined with my sporting background makes me the ideal candidate for re election.

Additional Information (use additional space as required)

Life member of AUSA and TSA

Completed Outward Bound course January 2005
